| Grade 8 | Prepared by E. Anjali Sandareka R/Emb/ Andoluwa College |

Unit 5 - Physical Computing

Obtaining Outputs of circuits build with combined gates Using MM Logic Software.

Example- showing the following circuit using the software.

It is as below,

The following changes of output with the changes of input can be seen while running this circuit.

Input A	Input B	Input C	Output
0	0	0	1
0	0	1	0
0	1	0	0
0	1	1	0
1	0	0	0
1	0	1	0
1	1	0	0
1	1	1	0
