

සකස් කිරීම : මාවනැල්ල අධ්‍යාපන කලාපය

- 
- The diagram shows a parallel circuit. A horizontal line at the top represents the power source, indicated by diagonal hatching. Two vertical lines descend from this horizontal line, forming two parallel branches. The left branch contains a circle labeled 'A', and the right branch contains a circle labeled 'B'. Both branches rejoin a horizontal line at the bottom, completing the circuit.
