Read the passage and answer the questions

In the Sky we can see sun, stars and the moon. The sun is up during the day. It is very hot. The sun gives us light and heat. We can see stars and the moon at night. They also give us light. There are lot of stars in the sky at night. Some people see shapes in the stars. A group of stars that make a shape is called a constellation. Have you ever seen the Big Dipper? That is a constellation. It is fun to watch stars at night.

1. What is this passage about?
2. What does sun gives us?
3. What does stars give us?
4. What is a constellation?
5. People like to watch different.....in the stars.
