

Provincial Department Of Education – Sabaragamuwa
WEEKLY SCHOOL

Subject : Science

Grade 7

Week : 16th of 1st Term

Unit 6 – Animal Diversity(1)

➤ Vertebrates and invertebrates

○ Assignment 6.1

- Observe the home garden and identify 10 different animals and name them.
- Group them based on different features you observed in them.

Animals $\left\{ \begin{array}{l} \text{Animals with backbone (vertebrates)} \\ \text{Animals without backbone (invertebrates)} \end{array} \right.$

The picture given below shows some species of animals living in sea shore. Group them into vertebrates and invertebrates.

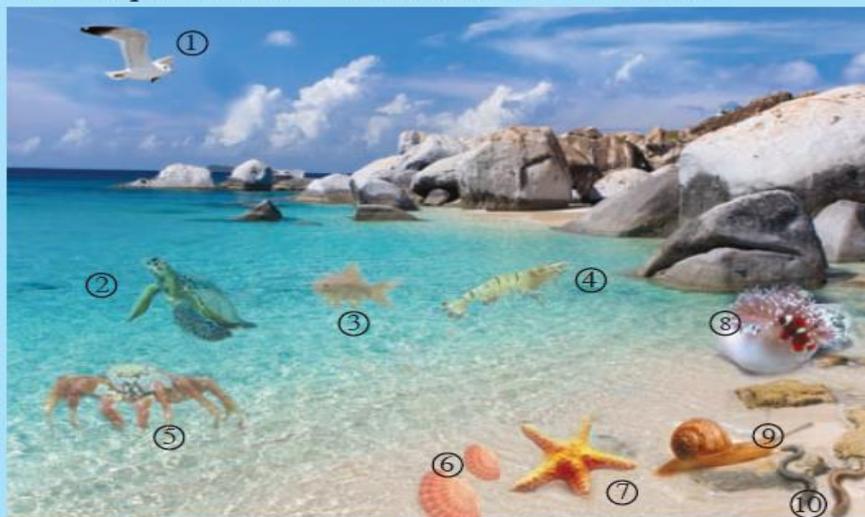

Figure 6.5 ▲ Animals observed in the sea shore

- | | |
|----------------------|----------------|
| 1. Sea gull | 6. Bivalve |
| 2. Turtle | 7. Star fish |
| 3. A species of fish | 8. Sea anemone |
| 4. Prawn | 9. Snail |
| 5. Hermit crab | 10. Worm |

A picture of a forest drawn by a student is given in Figure Identify organisms in the picture.
