Read the passage and complete the table.

There are many materials in nature around us. They are called natural materials. One of these natural materials is the wool. Wool comes from sheep. Heavy clothes like jackets and coats are made of wool. We wear heavy clothes in winter. The blankets are made of wool too. Cotton is a natural material. It comes from plants. We wear cotton clothes in summer. Shirts, t-shirts and dresses are made from cotton. Wood is another natural material. It comes from trees. Tables, chairs, doors and beds are made of wood. The clay is a natural material. It comes from riversides. Pots, vases and mugs are made of clay. Iron and gold are natural materials. They come from underground. Rings and earrings are made of gold. Gates, fans, cars and bikes are made of iron.

There are a lot of artificial materials. They are made in factories. They are not natural. The glass is an artificial material. It's made of sand. Cups, windows and mirrors are made of glass. The paper is an artificial material. It's made of trees. Books, notebooks and tissues are made of paper. The plastic is an artificial material too. It's made of oil. Toys, bottles and rubbish bins are made of plastic.

Material	It comes from	Product
wool	sheep	jackets, coats, blankets
