Test- 4

Read the passage and answer the questions.

Almost everything about elephants is big. They are very large animals. There are two kinds of elephants: the Indian elephants, and the African elephants. A male African elephant can weigh up to six thousand kilos. Elephants can be up to four meters big tall. They live in forest because they eat and drink so much. Elephants spend about sixteen hours eating every day. They eat up to 200 kilos of food. They can drink over 250 liters of water. Elephants have very big and very thin ears. Elephants use their ears to cool themselves down. An elephant's trunk can smell food, water and predators. In all days elephants were used to carry heaviest thing and today machines like cranes are used for the purpose.
