

1. A school is planning to do the process related to admission of students to the grade 1 classes online. Accordingly, the guardian should submit application online. The school system will submit applications of school admission to the school selection committee. Committee submits the details of selected and rejected applications to the system. The system inform guardian about that. Later, the committee will informed the system about dates and times of the interviews to be held. Information related to the interviews are given to the committee and the list of selected students will be added to the system after approved by the committee. It is taken by the guardian and submits registration details and the fee if selected. The system is informed the selected class with a receipt. The data flow diagram related to the incident is given below.
