week- July 2

Subject-Economics

Grade-13

Prepared by -  
Zonal Education Office, Rathnapura.

1. “Sources of economic growth in Sri Lanka in recent years have been largely dominated by domestic non-tradable economic activities”. Identify these activities.
2. “The female labour force participation rate in Sri Lanka has remained stagnant at a relatively low level in recent decades”. What are the reasons for the low rate of female participation in the labour force?
3. Why has Sri Lanka’s tax revenue to GDP ratio been falling in recent years?
4. Identify the fundamental weaknesses in the Sri Lankan economy that have constrained the achievement of high growth rate in the medium and long term.
