week- September 2

Subject-General Information Technology

Grade-12

Prepared by -
Zonal Education Office, Rathnapura.

1. Read the following paragraph and answer the questions given below.

Piyasoma purchased a computer with 2.6GHz processing speed with the aim of making it easier for his company to work. With the 3GB Random Access memory size and the 1TB hard disk capacity. He believes that this computer is used to normal work at the company. This computer is consisted of a key board, a 16 inches LCD screen, a mouse, a speaker and an UPS device is also connected to it. The windows 7 operating system was installed in this computer. Word processing software and spreadsheet software were also installed to help everyday tasks.

1. According to the above paragraph name the computer data processing device and write down the speed of that device.
2. What is the answer when hard drive capacity is in GB?
3. What is the main function of the computer's Random Access memory?
4. Write down two input devices and two output devices here.
5. What is the purpose of the computer to have an UPS device?
6. Write two other operating systems you know other than the windows 7 mentioned here.
