Web designing using Multimedia

1. There are essential HTML tags in a HTML document. Write them and show the basic structure of a HTML document by representing the essential tags.

2. Name the basic features of HTML and explain them.

3. Show the element, attribute and value of a HTML tag using an example.

4. Explain the function of following tags when creating a web page.

   i. <font>
   ii. <center>
   iii. <b>
   iv. <i>
   v. <u>
   vi. <em>
   vii. <s>
   viii. <sup>
   ix. <sub>
   x. <marquee>
   xi. <p>
   xii.
