Subject- Information Communication Technology

Week-January Second Week

Grade-9

Prepared by- M.G.M.N.Kumari - R/NI/ ERabadda Vidyalaya

- During this time it is your responsibility to revision related to every subject and engages in academic pursuits.
 - You will be given a week to complete this task.
 - To study the Prepares specification for purchasing a computer and peripherals, pages 3 to 4 of the lesson and engage in the following activities.
 - Prepare a separate folder and attach your answers or designs rename it as "**The second week- ICT- your name and grade**".
- 1) User requirements are the tasks we hope to accomplish with the computer. Create a user requirements list that you wish to do so by computer.
 - 2) They can be classified into two types according to the nature and use of the computer. Name them.
 - 3) Include server computer, tablet computer, all-in-one computer, workstation computer, smart phone, laptop computer, server computer, notebook computer in your above classification.
 - 4) Assuming you wanted to buy a monitor and an external hard disk, write down separately what to look for when purchasing the device.
 - 5) "The most important thing for us today in terms of user demand is mobile computers." Explain whether you agree or disagree with this statement. (About 100 words)
 - 6) Find a few ads about computers in newspapers or magazines and paste them into your book to create a table comparing the specifications of the processor, RAM capacity, hard disk capacity, display size and type, and price.
