

PROVINCIAL DEPARTMENT OF EDUCATION - SABARAGAMUWA

Western Music

July 4th Week

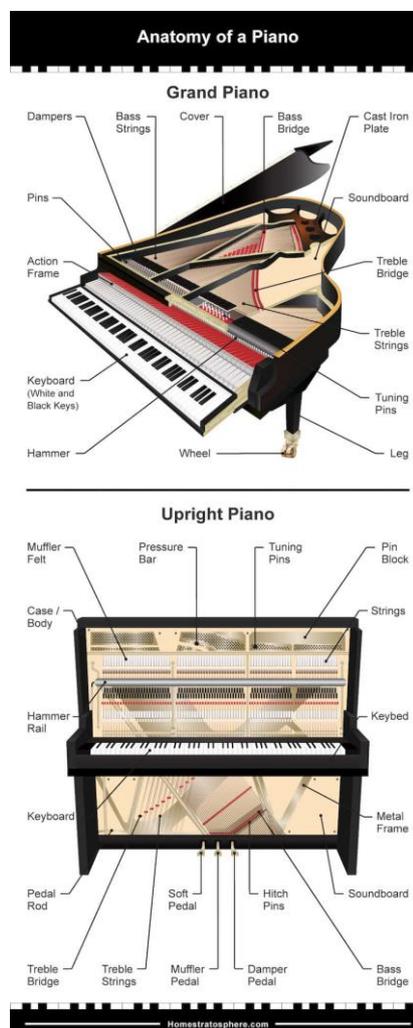

Grade 9

Prepared by- R/ Kalawana National School
V.K.D.D. Vitahana

- Competency** - Exhibits Awareness of Structure sound production and tone quality of musical instruments
- Topic** - The Action & the mechanism of the piano
- Time** - Period 03

THE MECHANISM OF PIANO

One end of the strings is supported on bridges, which are attached to the soundboard. The vibrations of the strings are transmitted to the sound board through the bridges, and a loud sound resonates as a result of the sound board vibrating the air. The entire piano notably the sound board, vibrates to produce sound

Activity

- Who invented the piano
- What are the instruments that were used before the piano is invented
- Name three pedals of the piano
