Mawanella Education Zone
Mrs. Thilini Deshapriya

10. Let us be aware and face challenges.

01. Upul has caught the common cold. So it is difficulty for him to do class work. He is sneezing often and her eyes are tearing. A few days later, Upul's friend Sunil too developed the common cold.

- What are the symptoms of Upul's common cold?
- Could it be that Sunil contracted the common cold from Upul?
- What are the other diseases that can be transmitted from one person to another?
