6.3.2 Disposal of waste

Read the textbook lesson and answer the questions asked. (Page - 52)

1. What is waste?
2. Categorize according to the sources of waste generation.
3. Write examples of the two types of material we see in the table below.

| Decaying | Non - decaying |
|----------|----------------|
| 1. | 1. |
| 2. | 2. |
| 3. | 3. |

4. Write a way to prevent the damage that can result from improper disposal of waste.
5. Draw a colorful picture showing how to properly dispose of waste and WhatsApp to 0769475734.
6. Do the activity at the end of this lesson in the textbook.
