

Department of Education, Sabaragamuwa/weekly school

week- June 1

Subject-Economics

Grade-13

Prepared by -  
Zonal Education Office, Rathnapura.

1. What are the conditions necessary for economic growth to translate into improvements in the quality of life?
2. What is meant by 'social protection'? Name three major components of the social protection programme in Sri Lanka.
3. "Gini coefficient is a useful summary statistic for measuring income inequality, but it does not convey as much information as Lorenz curves". Explain.
4. What are the reasons for the existence of a large gender gap in the labour force participation rate in Sri Lanka.
