Test 09

Read the passage and answer the questions given.

In the sky, we can see the Sun, stars and the Moon. The Sun is up during the day. It is very hot. The Sun gives us light and heat. Plants need the Sun to grow.

We can see the stars at night . They give off, light and heat, like the Sun. That is because the Sun is a star too! There are more stars than we can count.

Sometimes we see shapes in the stars. A group of stars that makes a shape is called a constellation. Have you ever seen the “Big Dipper?”. That is a constellation.

The Moon is out at night. Sometimes we can see it during the day. Moon doesn't give off light and heat.
